

## The Kings Son (Tales of Tiernan Book 3)

Pirel was a fine enough city. And Kacianah has a moderate and comfortable life which is just fine for her. Growing up without a father was an adventure enough for one lifetime. Her father's only legacy being the young boy named Ryu. A shy and respectable young man, with too many secrets in his young eyes. He left as mysteriously as he came and Kacianah was once more alone to care for her sweet mother in her mourning. If only life could continue as simple as that forever. Not only is her home beset by bandits who come out of nowhere, and King Orin seems a few beans short of a proper stew. At least Prince Landris does his best to protect the city. If only he would leave his large black wolf like dog at home, the large beast makes everyone more than a little nervous. Do dogs have green eyes? And then her worst nightmare comes true when she wins the annual week long vacation at the Palace. The only positive aspect of that is Feia would be there to keep her company, at least when her silly friend isn't chasing after the prince. Still, could Kaci really handle a whole week in the palace with the strange king and his moody son? Then the dreams start, and before she knows it her whole world is turned upside down! Prince Landris disappears after another attempt at his life and she is left in the midst of chaos and intrigue, even her mother's companionship isn't enough to eradicate the unease and mystery that begins to unfold her in its chilling clutches.
