

The Approaching Crisis (Classic Reprint)

Physico-Physiological Researches on the Dynamics of Magnetism, Electricity, Heat, Light, Crystallization, and Chemism, in their Relations to Vital Force: By Baron Charles Von Reichenbach. With the Addition of a Preface and Critical Notes, by John Ashburner, M. D. With all the Plates. In one Volume, 12mo., 456 pp. Price, \$1 25. This book is a valuable addition to scientific knowledge upon subjects that have hitherto been involved in obscurity and mysticism. Charlatans have so long availed themselves of a slight knowledge of the phenomena of magnetism for mercenary purposes, that discredit has been thrown upon the whole subject, and men of science have been deterred from pursuing, or at least from publishing, their researches. The work before us gives the result of a vast number of experiments, conducted with great philosophical acumen, testing the truth both of modern theories and ancient superstitions. Phenomena attributed in past ages to a supernatural agency, and by the superficial skepticism of later times dismissed as mere impostures, are in many instances traced with great clearness to natural and explicable causes. It requires, and is eminently worthy of, an attentive perusal. City I tem. II. THE CELESTIAL TELEGEAPH; or, Secrets of the World to Come, revealed through Magnetism; wherein the Existence, the Form, and the Occupations of the Soul, after its Separation from the Body, are proved by Many Years Experiments, by the Means of eight Ecstatic Somnambulists, who had eighty Perceptions of thirty-six Deceased Persons of various Conditions. A Description of them, their Conversation, etc., with Proofs of their Existence in the Spiritual World. By L. A. Cahagnet. In one Volume, 12mo., 410 pp. Price, \$1 25. HM. Cahagnet has certainly placed the human race under a vast debt of obligation to himself, by the vast amount of information vouchsafed

respec(Typographical errors above are due to OCR software and dont occur in the book.)
