

Beacon Lights of History, Vol. 3 (Classic Reprint)

Middle Ages was a poet. Poetry, then, was the first influence which elevated the human mind amid the miseries of a gloomy period, if we may except the schools of philosophy which flourished in the rising universities. But poetry probably preceded all other forms of culture in Europe, even as it preceded philosophy and art in Greece. The gay Provençal singers were harbingers of Dante, even as unknown poets prepared the way for Homer. And as Homer was the creator of Grecian literature, so Dante, by his immortal comedy, gave the first great impulse to Italian thought. Hence poets are great benefactors, and we will not let them die in our memories or hearts. We crown them, when alive, with laurels and praises; and when they die, we erect monuments to their honor. They are dear to us. (Typographical errors above are due to OCR software and do not occur in the book.)
