

First Ladies of Rome: The Women Behind the Caesars

Like their modern counterparts, the first ladies of Rome were moulded to meet the political requirements of their emperors, be they fathers, husbands, brothers or lovers. But the women proved to be liabilities as well as assets - Augustus daughter Julia was accused of affairs with at least five men, Claudius wife Messalina was a murderous tease who cuckolded and humiliated her elderly husband, while Fausta tried to seduce her own stepson and engineered his execution before boiled to death as a punishment. In *The First Ladies of Rome* Annelise Freisenbruch unveils the characters whose identities were to reverberate through the ages, from the virtuous consort, the sexually voracious schemer and the savvy political operator, to the flighty bluestocking, the religious icon and the romantic heroine. Using a rich spectrum of literary, artistic, archaeological and epigraphic evidence, this book uncovers for the first time the kaleidoscopic story of some of the most intriguing women in history, and the vivid and complex role of the empresses as political players on Rome's great stage.
